LAB Qualitative
Research

The aim of the workshop is to discuss methods of data collection (the “voices” of participants) looking at the ways in which they may affect the researchers’ observation and analysis. The contributions are focused on video-recording and audio-recording, connecting analytical methods, technologies and ways of archiving and disseminating collected and analysed data.

PROGRAM

10.30 Introduction to the workshop	14.00 – 14.10 Introduction to Session II Vittorio Iervese (UNIMORE)
10.40 – 10.50 Introduction to session I Claudio Baraldi (UNIMORE)	14.10 – 14.40 How to analyse embodied and distributed processes of collaborative remembering in social interaction Lucas Bietti (Université de Neuchatel)
